

Bara Consult : Collaboration Network

Bara Consult (Pty) Ltd is a newly formed consultancy whose founders have experience in working in partnership on civil and structural projects in design, project management and construction monitoring in Africa.

Bara Consult is based in Port Elizabeth, South Africa, but the founding members have executed projects throughout South Africa and Africa and part of the commitment to *“creating engineering solutions”* is the establishment of a distinct collaboration network with like-minded small to medium size firms who have a similar passion for

delivering quality solutions and superior service to clients.

Through this collaboration network **Bara Consult** is able to service clients seamlessly in the centres and regions indicated below. Contact us to find out more...
